

EQUIP-SAFE EQUIPMENT & SAFETY COURSES

RIIWHS204E Work safely at heights

OVERVIEW

This nationally recognised course will provide you with the knowledge and skills you need to work safely at heights in accordance with industry requirements.

CONTENT

The practical component covers conducting a risk assessment, inspecting safety equipment, demonstrating safe usage of fall arrest harnesses, performing self-rescue procedures and utilising injury prevention systems.

This course covers the following theory; legal requirements, the definition of working at heights, fall restraint vs fall arrest, the pendulum effect, hazards associated with fall arrest harnesses and emergency rescue plans.

DURATION

1 day.
