

Emergency descent

OVERVIEW

This nationally recognised course equips participants with the knowledge and skills necessary for proficiency in emergency retrieval systems, performing EWP controlled descent, and executing emergency descent rescues in accordance with industry standards.

This course consists of the following units of competencies:

- UETDRRF002 -Perform EWP rescue
- UETDRRF008 -Perform EWP controlled descent escape

CONTENT

You'll learn EWP rescue techniques, such as lowering the booms and bucket using controls, accessing and retrieving injured persons, and providing first aid. Additionally, you'll cover controlled descent escape, focusing on safe exit from the bucket, controlled descent, using descent devices for controlled descent, and proper packing and storing of descent equipment.

REQUIREMENTS

Prior to enrolment, the following unit must have been completed within the last 12 months:

- HLTAID009 Provide cardiopulmonary resuscitation

DURATION

Half day.
